Note: *Call of Duty®: Black Ops uses an automatic checkpoint-based save system. Select the **Save and Quit** option from the in-game Pause Menu to save game progress and return to the Main Menu.*

SETTINGS

Adjust the game's settings to suit individual preferences. Adjustable settings include: graphics, sound, controls, graphic content filter, and subtitles.

HEADS-UP DISPLAY (HUD)

1. Compass – Shows the direction you are facing.

2. Inventory – Displays devices and/or weapon attachments that are currently available, such as the grenade launcher or motion sensor.

3. Grenade Indicator – Icon warning you that there is a grenade nearby, arrow indicates the location of the grenade.

4. Damage Indicator – Red marker shows that you are taking damage and the direction the damage is coming from.

5. Use Prompt – This only appears when you are near a weapon or interactive object, indicates what key to press to interact with the weapon or object.

6. Match Info (MP Only) – Displays current score, team icon and time remaining in match.

7. Ammo Count – Shows remaining bullets for currently equipped weapon, as well as remaining Lethal and Tactical grenade supply.

8. Mini-map (MP Only) – Shows the local area plus locations of friendlies and known hostiles.

9. Crosshair – Indicates where you are currently pointing your weapon. Turns red when positioned over an enemy, green when positioned over a friendly. Walking or running causes the crosshair to grow wider or sometimes disappear altogether, indicating a loss of accuracy. Stopping movement, crouching, and going prone increase accuracy.*

Note about ADS (Aiming Down Sight) – *When you press the ADS button you will aim down the sights or scope of your weapon. This will greatly increase your accuracy and decrease your movement speed. While in ADS the crosshair will disappear.*

HEALTH SYSTEM

When you take damage from an enemy, the screen will show blood splatter and the damage indicator will show you the direction the damage is coming from. As more damage is sustained the screen will grow redder, you will hear your heart rate increase, and your breathing will grow heavy. If you can find cover and avoid enemy fire you will slowly recover from the damage and be able to continue at full strength.

PAUSE/OBJECTIVE SCREEN

Press **ESC** any time in Campaign or Zombies to pause the game and access this menu. From here you may access game Options, restart the current level or save and quit to the Main Menu. *Call of Duty®: Black Ops* cannot be paused while playing in online cooperative sessions.

MULTIPLAYER OBJECTIVES SCREEN

Call of Duty®: Black Ops cannot be paused while playing in MP mode. Pressing **ESC** in MP will bring up a menu that will allow you to choose a new class (taking effect on your next spawn), view the description of your current game mode, and access the Options menu. Keep in mind that the MP match is still live in the background when you are in this screen.

PLAYERCARD (MP ONLY)

You can also view all your key game statistics in the **Combat Record**, check your progress against the in-game **Challenges**, view the game **Leaderboards**, and create a **Clan Tag** all from within the Playercard.
