LB - Reload

D-PAD - Switch Weapon

D-PAD - Toggle Gear

L3 - Drop Bag

Back - Show info

R-Stick + R-Trigger - Cancel Gear Interact

Note: if using the Xbox dongle (wireless) pad, and then switching to wired mode, you may find that d-pad functionality will no longer work. The current workaround for this is to go into the options and select the other Xbox pad variant – this is due to a driver conflict between the two current drivers – we are working on a fix for this)
