You can turn ON/OFF the music.

PLAYING THE GAME

SINGLE PLAY

When you start your game, the first thing you will see is the stage selection screen.

There are five selectable stages and **Gambling House**. If this is your very first game you can only access the first stage "Graveyard" and Gambling House. To unlock the next stage, you have to beat the boss and get the big golden key.

Also there are your **Loot Bag** and **Trophy Room** to which you can access from there.

PLAYING THE GAME (CONTINUED)

THE GAME SCREEN

The goal of the game is to survive as long as possible and **protect the princess at all costs**. The game is over when you lose all your lives or monsters reach the princess.

Picking up a **red chest** gives you one of the many powerful weapons (selected at random.) By attaining certain numbers of chests in the game the player can unlock new weapons. You can pause the game and check on the screen how many chests you need for the next weapon. Also, the number of chests that the player picks up constitutes your score.

To protect your princess, build more **Palisades** and **Guard Towers**. Wood and Stone can help you with this.

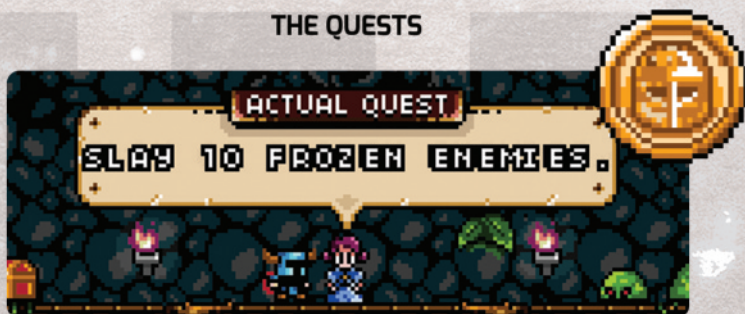

PLAYING THE GAME

THE QUESTS

The princess have many **quests** for you.
Finish the quests and your reward will be the golden token!

LEVEL UP YOUR HEROES!

As you defeat enemies, a red bar begins to fill at the top of the screen.
Once it fills completely, you'll be able to level up in one of four areas
DAMAGE, HEALTH, CRITICAL and **SPEED**.

Stage Bonuses are only temporary, they are reset when
you die or leave the stage.
