

Thank you for purchasing **Doc Apocalypse**! Why not try the *tutorial* available from the main menu of the game for an introduction on how to play?

You will need to use your *mouse* to help Doc walk around and interact with the environment.

Right click or use the bar at the bottom of the screen to cycle actions like *walk*, *use*, *look at* and *talk to*.

Exploring locations and learning information from people you meet will earn you points along the way.

Collect objects to your *inventory* at the bottom of the screen, and *use* items on other items in the inventory and within the environment to solve puzzles!

Don't forget to save your game every once in a while, but there is also an *autosave* which you can re-load at any time.
